Introducing

RoadSmart

Our NEW online and mobile driver risk management system

Desktop portal for managers: Onboarding and profiling made easy

- New desktop portal for 2023

- Onboard drivers and assign them Coaching modules remotely

- Capture driver and vehicle details and carry out automated DVLA checks

- Automatically remind drivers to update details for full compliance

- Roll out risk assessments and learning content in a few clicks

Desktop portal for managers: risk reporting made easy

- Access driver profiles and fleet-wide risk data at a glance

- One-click report generation for your most common metrics

- Take care of your grey fleet with the minimum of effort

- Easily identify trends and pinpoint drivers in need of training or other interventions

- Mobile app integration makes it easier for drivers, and easier for you

iAM RoadSmart

Choose the RoadSmart options you need to establish a comprehensive driver risk management journey to suit your fleet

Summary   Licence   Grey Fleet   Fleet   Coaching

- Easily summarise and report on fleet-wide risk data

- Check drivers' licences with DVLA for validity and endorsements

- Automated grey fleet checks: driver record, vehicle tax, MOT, insurance

- Automatically collate and analyse drivers' Coaching and E-learning performance

- Optional fleet management and driver auditing tools

Mobile app: driver coaching and e-learning

- Onboard drivers remotely via our easy-to use mobile app

- Provide interactive e-learning modules

- Drivers' performance contributes to their risk profile

Mobile app: ongoing engagement with road safety

- Learning is varied and interactive, new modules are added over time and are customisable

- Optional push notifications for drivers about new content and essential updates

- Drivers can view their own stats and work on improving their RoadRating

- Optional IAM RoadSmart newsfeed functionality
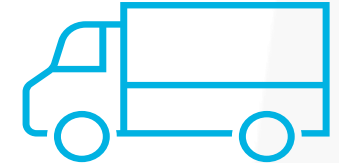

- Built-in Highway Code app
