Choose a tier

Standard

Get access to our full list of standard modules for all relevant vehicle categories, and the following RoadSmart functionality:

- Driver profiling

- Response-led content issued directly to drivers

- Continuous learning

- Real-time knowledge and engagement scores

- Driver leaderboard

- Endorsement-triggered courses

- 'Glovebox' for driver documents and contact numbers

- Optional news feed

- RoadRisk scores updated following successful completion of in-vehicle training

- Learning modules for car, van, HGV and PCV drivers, with automated feedback and scores

- DVSA practice modules

Premium

For the most comprehensive and flexible package, our Premium tier offers all the features of our Standard tier, plus:

- Content on demand: go beyond the standard modules and work with us to create and deploy learning content of your own

- Full autonomy of content, and the ability to schedule training according to business objectives, seasonality or trends

- Fully automated diary system, which allows you to use the RoadSmart app to schedule on-road training courses for your drivers
