

## Vehicle Familiarisation

The IAM RoadSmart Vehicle Familiarisation course will ensure your drivers are equipped with skills they need to drive your vehicles safely.

This practical-based course is available to drivers with all levels of experience, competence and confidence.

The course objectives are to familiarise drivers with a vehicle type they may not have driven before, to develop awareness around the various vehicle features and dynamics and to explore the associated risks.

Vehicle types	LCV	
Format	Practical	
Duration	Half day	Full day
Trainer to delegate ratio	1:1	1:3

**Book your course here:**

## How can this course benefit me?

Driving a new or unfamiliar vehicle can be stressful and unnerving. Our course will help your drivers to seamlessly transition between their private vehicle and your company vehicle and reduce the risk of incidents arising because of vehicle familiarity issues.

Your drivers will benefit by learning:

- to deal safely with hazards where vehicle weight is critical
- the width, length, height and weight considerations necessary to choose safe gaps to park and manoeuvre
- the various technical aids and warning devices specific to the vehicle
- the ergonomics between driver and vehicle
- the vehicles' blind spots (particularly relevant to low speed manoeuvring)

## Why choose us?

At IAM RoadSmart, we make better drivers and riders. As a registered UK charity formed in 1956, our aim has remained the same over 60 years - to make our roads safer by improving the skills of drivers and riders.

Our customers are post-licence drivers and riders, of any age and ability. Our services are designed to teach new skills, improve existing ones and provide confidence and knowledge to get the most from being on the road.

Our experts develop the skills of drivers and riders through recognised training and offer friendly advice and support.
